Important Highway Closures

Westbound SH 114 exit ramp closure

July Construction Activities

What's Next?

## **Important Highway Closure**

### **Westbound SH 114/121 between Texan Trail and International Parkway**

All main lanes of westbound SH 114/121 between International Parkway and Texan Trail will be closed from 8 PM to 6 AM each night from August 13 to August 15. Traffic will be detoured to the SH 114/121 frontage road at Texan Trail.

In addition, two lanes will remain open on westbound SH 114/SH 121 from International Parkway to Texan Trail from 6 AM to 8 PM each day from August 14 and August 15. Lane closures will allow crews to work on drainage across the median.

[For full detour route information, visit our Alternate Routes page.](#)

## **Important Ramp Closure**

### **Westbound SH 114 exit ramp**

There will be a full ramp closure on the westbound SH 114 ramp to northbound SH 121 and southbound International Parkway from 8 PM on August 20 to 6 AM on August 23. Traffic will be rerouted to the Texan Trail frontage road, and uniform

## **July Construction Activities**

Our new concrete crushers have arrived on site! The permanent and mobile crushers are at Texan Trail. Both crushers will break down old concrete from previous removals and recycle it for use as base in new pavement. The mobile crusher is also the first one of its kind in the United States.

Mobile crusher in SH 114/ 121 median

Column and cap (the top of the columns) construction continued on the following bridges:

- Main Street
- IH-635 to International Parkway
- Bass Pro Drive to International Parkway

We started work on the new bridge from eastbound SH 114 to northbound SH 121 by pouring columns and caps.

Bridge work north of DFW Airport

Excavation started on the eastbound SH 114 frontage road west of DFW Airport and the new eastbound SH 114 exit ramp to DFW Airport. With these operations under way, look for construction work to begin on an expanded entrance to DFW Airport later this year!

Night grading work at Main Street

Other major activities that took place in July:

- Installed more than 2,500 linear feet of drainage pipe in the median of SH 114/121 from Main Street to International Parkway.
- Mixed initial trial batches of permanent concrete at our concrete batch plant.
- Performed traffic shift west of Main Street, which allowed more than 6,000 linear feet of concrete barrier protection to be placed.

police will be in place to assist with traffic. Lane closures will allow crews to work on drainage.

- Continued working on a water line under William D. Tate Avenue.

## What's Next?

Crews will continue drainage, grading and wall work in the median of SH 114/121. Once these operations are complete, permanent paving can begin in the median. This work will allow us to switch traffic to the new median lanes by the end of the year so work can begin on the outside lanes.

August also means more detour paving on SH 114 west of Main Street. Traffic will then be shifted to allow crews to begin work on new westbound SH 114 lanes.

Within the coming months, crews will also:

- Continue working on permanent walls near southbound SH 121 north of Airport
- Begin work on north entrance to DFW Airport.
- Start to place horizontal bridge beams on Main Street bridge.
